

## HOW TO USE PREVAIL® PER-FIT 360° or BREEZERS 360° BRIEFS

### (2-Panel Adult Diapers)

1. UNFOLD the brief and side panels until you can see the blue Easy-Lock strips.
2. FASTEN the panels as shown in the pictures below to apply the brief while in a sitting or lying position. You can readjust the panels as often as needed to get the right fit. Make sure you press down on the panels firmly with your hand to smooth them out.
3. CHECK SIZE: if the panels are very close together or touching across The stomach, they will be too big and will leak.

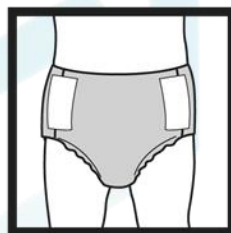

### IMPORTANT NOTES:

- Do not use two products at once
- Do not flush products.
