DEAR CUSTOMER,

Since 1970, APA Medical has been distributing durable Medical Equipment and Supplies to customers throughout the Twin Cities and to facilities nationwide.

APA started out as a small locally owned business, and has grown into a company that staffs over 30 employees that bring decades of work experience. From our Customer Care group, to repairs, to order fulfillment, we do everything possible to satisfy our customer’s needs. The APA catalog was designed for fast and easy customer use. Although our catalog only illustrates some of the most widely used equipment and parts, we do carry much more than what’s listed in our catalog.

View our web page at apamedical.com or contact us at 612-722-9000 for more information regarding product or service.

Our mission is to provide our customers with the highest degree of service and knowledge available in the industry. We hope to help supply the medical products you need!

Thank you,

CHAIR SAMPLE ORDER: USN45BAI

US - N - 45 - B - A - I **
(Seat, Nylon, Breezy, 18” X 16”, Black)

Use this matrix to measure for upholstery you can’t find. Use the sample chart above to help find the Hole pattern and size. UPH is measured in 2” increments. Example: 16”, 18”, 20 etc. If your measuring 17.5” Its most likely a 18” wide. If you measure a 16.5”, its most likely a 16” wide. Depth isn’t as important, that can fluctuate.

Hole pattern: seat, measure from the front to back. Ctr to ctr between the hole. Start from the top to the first hole, as so on. Most seats are 4 hole, 18” deep will generally have 5 or 6. Do the best you can when measuring and call us if you have any problems or questions.

** UPH – Style – Hole Code – Width – Depth – Color
How to measure the Back upholstery:

1. Width across top of back
2. Width across bottom of back
3. Distance of holes (center to center)
4. Length from top to bottom

Best Buy For EX2 & SX5 Non-Recliner

This alternate model of our Wheelchair Anti-rollback Device has been specifically designed to fit the popular Invacare Tracer EX2 or Invacare non-reclining SX5 wheelchair.** Because it requires less adjustability, it’s more economical to manufacture and that means a lower cost!

Like our popular model SM2-2 Anti-rollback device, this unit automatically prevents the wheelchair from rolling back as the user attempts to stand or sit. As soon as the occupant lifts their weight from the seat, the brake arm grabs the tires and prevents rearward movement. When the user is safely seated, the unit is in standby mode and the wheelchair operates normally.

The device offers an integrated design for a discreet appearance and it does not interfere with collapsing the chair for transport or storage

Lower cost with all the desired features!
- Discreet design integrates nicely with the wheelchair
- Does not interfere with quick collapse of the chair
- Conveniently located override handles directly below handgrips for ease of moving unoccupied chair
- Works with all versions of Tracer EX2 and the non-reclining Invacare SX5 wheelchair.
- Any width chair
- Either axle height
- Permanent or removable arms
- Installs with basic tools in approximately 20 minutes

** Of course our standard Anti-rollback Device (Model SM2-2) also fits the Invacare Tracer EX2 and can be easily transferred between many makes and models of wheelchairs. Whereas, the Model SM-014 fits only Invacare Tracer EX2 or the non-reclining SX5.

The Pilot™ is a low-profile GEL cushion that provides exceptional pressure relief for most users with a pressure injury history. 1” of Akton® polymer provides immersion for bony prominences and protects clients with fragile skin integrity. This multi-use cushion is recommended for use on manual and power wheelchairs, truck or taxi seats, or for other uses requiring significantly reduced high pressure areas, vibration and shear. The very low profile allows users to effectively reach the floor for more efficient foot-assisted propulsion. It also conforms to pre-contoured foam or rigid cushions to maximize stability and positioning when required. Comes with Basic Cover. Incontinent and replacement covers are also available.
**MATTRESS / OVERLAY - 1**

**MATTRESS INNER SPRING**  
A5X888  80” × 36” × 6”  
A5X999  84” × 36” × 6”  
Economical innerspring mattress with two polyester fiber toppers. The unit has a 1” high-density, firm, combustion-modified fiber topper on each side. The Masongard vinyl waterproof cover is antimicrobial / anti-bacterial.

**MATTRESS PERIMETER**  
A5X689 - 80” × 36” × 6” (Raised Sides)  
A5X998 - 84” × 36” × 6” (Raised Sides)  
- 3” elevated perimeter prevents patient falls and the Cut Out sections facilitates easy transfers in and out of bed. The Gravity 7 Long Term Care Pressure Redistribution Mattress by Drive Medical uses a multi-layered, high density foam to provide optimal pressure redistribution for individuals in long term care facilities.  
- The top layer of foam is high resilient and die-cut, which provides comfort and proper pressure redistribution. The ultra-soft heel section is uniquely designed to provide extremely low skin interface pressure, preventing pressure ulcers.  
- The mattress cover is a 2-way stretch, water resistant, vapor permeable nylon ensuring users comfort and hygiene. The cover provides a low moisture transmission rate (MVT) which keeps the patient cool, dry and comfortable.

**BARIATRIC FOAM MATTRESS**  
A5X915 - 80” × 42” × 6”  
- Durable 11-ounce vinyl cover  
- Constructed of high resilience, easy-to-clean foam for extended life and service  
- Constructed of latex-free materials  
- Solid inner core mattress is reversible and flippable

**MATTRESS PRESSURE MANAGEMENT**  
A5X925 - 80” × 36” × 6”  
A5X926 - 84” × 36” × 6”  
- Deluxe, horizontal, cross-cut, foam mattress provides comfort, support and pressure redistribution over five different pressure zones  
- 210 denier nylon cover reduces friction and shear, and is water resistant and vapor permeable  
- Non skid bottom for patient safety  
- Better comfort, compliance, durability and pressure redistribution than innerspring mattresses allows for improved patient satisfaction and fewer service calls  
- Meets flammability standards CFR 1632 and CFR 1633  
- Latex free  
- 350LB CAP

**DEFINED PERIMETER MATTRESS COVER**  
A5X779  
- The Defined Perimeter Mattress Cover creates a raised rail, defined perimeter for enhanced fall prevention, without using patient restraints.  
- Open in mid-section for safe and easy patient egress and ingress.  
- Built-in medium density foam bolsters safely and comfortably define edges of bed for patient and prevent falling.  
- Easy-to-install and secure  
- Breathable nylon makes this a truly universal cover, compatible with both foam and powered air surfaces

INVACARE SX5
WCFIN12 (250 LB) / WCFIN13 (SUPER HEMI – 250 LB)

The Invacare Tracer SX5 Wheelchair’s lightweight frame, weighing less than 36 lb., makes this chair perfect for rental and long- or short-term use. This wheelchair offers multiple seat widths, arm styles, sectional back and seat-to-floor heights by utilizing the dual axle position frame base. The 20” and 22” widths include a semi-pneumatic caster to accommodate a weight capacity of 300 lb.

Combining the design and technology of the Invacare® 9000 series wheelchairs make it possible to interchange components with the Tracer SX5 wheelchair.

- Durable, low-maintenance, carbon steel frame is long-lasting. Dual axle positions allow variation of seat-to-floor heights
- 14-gauge crossbraces add strength and durability. Urethane rear tires mounted on “no flex” wheels offer superior performance
- Sectional back available in 16” and 18” back heights. Low-maintenance, dual-sealed precision bearings
- Heavy-duty inner liners keep seat and back from stretching
- Meets RESNA standards for manual wheelchairs in product performance
- 250 LB & 300 LB CAPACITY
